Additional Information:

The Dayton VA Medical Center will host a press a conference at the Wayne County, Indiana Chamber of Commerce to share with the community the expansion needs and pre-solicitation process for a new lease for our Richmond Community Based Outpatient Clinic. We believe this lease opportunity is a great economic prospect for the Richmond Community and would be a great asset to the Veterans we serve. Some benefits of the relocation of the Richmond CBOC include:

- Easy and quick access from major local highways 70 and Route 40 & 27.
- Improved parking by adding more than 100 spaces in parking the parking area.
- Located near numerous shopping and dining amenities.
- Doubling the existing capacity, by adding 5,600 additional square feet of clinic space, including a lobby and waiting room for a total of 12,000 square feet.
- Dedicated exam room for TeleHealth* and other specialty services.

*TeleHealth is a way for Veterans to get their health care closer to home at a Community Based Outpatient Clinic, at the main hospital or even in their home. TeleHealth includes: diabetic eye screening, clinical video telehealth (provider speaks with the patient in real-time.)

The media and the public are welcome to attend.
