

Employer Benefits

- ★ Become more competitive in the current labor market.
- ★ No employee benefits, insurance, taxes unemployment compensation or workers compensation costs.
- ★ Process is user friendly – minimal paperwork.
- ★ Screen prospective employees prior to hiring.
- ★ Use us to complete time-limited or temporary work without adding to permanent staff.
- ★ Contracts and number of workers are negotiable and tailored to meet your needs.
- ★ By helping Veterans, you fulfill Equal Employment Opportunity (EEO) goals and actively participate in community involvement.
- ★ Veterans Industries will monitor Veterans' work progress and will prevent or resolve any Veteran work related issues that arise...to your satisfaction.
- ★ Bookkeeping is simplified by making payment to a special VA account through which Veterans Industries reimburses the Veteran.

About the Program...

About the Veterans...

Veterans Industries / Transitional Work Experience (VI/TWE) clients are Veterans who have either completed treatment at this Medical Center or who continue some outpatient services. Our clientele are Veterans from all walks of life. They possess a variety of skills and educational levels and have demonstrated their desire and ability to work, but they need assistance reentering the workforce after periods of unemployment.

All Veterans participating in the VI/TWE program have documented medical clearance from their VA provider, allowing and encouraging their return to a competitive work environment.

The Dayton VA Medical Center provides a wide spectrum of Vocational Rehabilitation (VR) programs for eligible Veterans. One of these VR programs is called Veterans Industries (VI)/Transitional Work Experience (TWE), which is designed to assist Veterans to hone the skills necessary to successfully reenter the competitive private sector workforce.

VI/TWE operates like local employment service companies. We will contract with you, the employer, to provide work ready Veterans to perform normal work place duties to your specifications and satisfaction. We differ from the employment services, in that, our rates are very low, and you will **never** be penalized for hiring a Veteran.

VI/TWE rates average 20%-40% below other employment service rates, because profit is not our goal. Our goal is to help develop a productive and responsible Veteran capable of supporting him or herself through partnerships with community employers.

Give Us A Call

- ★ Working with Veterans Industries/Transitional Work Experience brings qualified Veterans and employers together and is dedicated to assisting Veterans who want and are ready to work.
- ★ Why not give us a call at 937.268.6511 Ext. 1517 or 2657 or 1911? You have nothing to lose and everything to gain!
- ★ What better way to build diversity in your workforce? Meet potential employees whose background in the military has built a foundation of strong work ethics and teamwork.
